

Common Rail Diesel - 4.5L Turbo Land Cruiser

This training seminar is designed to give you a good understanding of Common Rail Diesel Engine Management Systems. In particular we will look at the new 1VD-FTV engine and accessories in the new Land Cruiser. During the evening we will also discuss common failing components in other models and view equipment we can use to diagnose faults.

Proudly supported by KM Diesel

- » **BBQ Dinner supplied**
- » **Learn about performance upgrades**
- » **Useful data gathered from a Twin Turbo Land Cruiser**
- » **Learn to safely service and diagnose faults in Common Rail Systems**
